# BLOCKCHAIN PROCESSING POWER FOR ENTERPRISE

The adoption of Blockchain applications for Enterprise will require massive processing power. TAAL is positioning to be the infrastructure partner of choice in the new protocol, BitcoinSV.

## TRANSACTION PROCESSING

Enterprise applications creating blockchain transactions are growing at a profound rate. TAAL's partners, clients and prospects each forecast billions of transactions annually.

## PROCESSING POWER

TAAL has secured the blockchain infrastructure, products & services to support enterprise clientele high-volume transaction processing requirements.

## TAAL CONSOLE

Our intuitive product will provide a robust dashboard allowing clients to manage and track their blockchain transactions in real-time. The online console includes value-added features that enables seamless back-end tracking of blockchain data and innovative invoicing features.
